

WAR DECLARED AT 1:13

BOTH HOUSES VOTE WAR WITH GERMANY

Army of 1,000,000 Men to be Raised within Year by Volunteer or Conscription

Movement of Mexican Troops Excites Suspicion---German Submarines near Southern Trade Route

WAR DECLARED
 (By United Press)
 Washington, April 6—War was declared at 1:13 today.

HOUSE PASSES THE WAR RESOLUTION
 (By United Press)
 Washington, April 6—The house passed the war resolution at three o'clock this morning by a vote of 373 to 50.

War Declaration Signed by Wilson At 1:13 p. m.

(By United Press)
 Washington, April 6—War was declared at 1:13 this afternoon, President Wilson signing the joint resolution passed by the house and senate declaring that a state of war exists between the United States and Germany, these last formalities were necessary to make the United States and ally of England, France and Russia in a world war of democracy against autocracy.

As the president signed the document the signal flashed from the government wireless to the ship at sea and to all forts of the United States.

America is at War Dramatic Scenes When House Voted

(By United Press)
 Washington, April 6—America is at war and one of the dramatic scenes in the house of representatives at 3 o'clock this morning was when Miss Jeannette Rankin, congressman from Montana, with a sob voted "no."

The signatures of President Wilson and Vice President Marshall at noon completes the measure.

Secret military orders are ready to be flashed everywhere, and war measures are drafted and ready for passage.

Sudden Movement Mexican Troops Toward the Border

(By United Press)
 El Paso, April 6—The sudden movement of Mexican government troops toward the border is believed to portend hostile action against border settlements. The government agents are watching closely the movement as border raid action will probably be taken at the first hostile move. The Carranzistas explain the movement of troops as against Villa.

High Carranzistas Are Implicated

(By United Press)
 El Paso, April 6—Scores of Germans are detained here by the department of justice in consequence of German plots. It is hinted that high Carranza officials are implicated.

President Issues Proclamation to People of U. S.

(By United Press)
 Washington, April 6—President Wilson has issued a proclamation to the people of the United States declaring that a state of war exists between Germany and this country, and directs all officials to exercise and vigorously discharge the duties incidental to a state of war.

The people are urged to uphold the laws of the land and give their undivided support to measures in the prosecution of the war.

Burnquist Holds Secret Conference with Officials

(By United Press)
 St. Paul, April 6—Governor Burnquist held a secret conference with the mayors of St. Paul and Minneapolis and the sheriffs of Hennepin and Ramsey counties. It being rumored that the meeting was to plan a heavy deputy sheriff and special police force to supplant the militia guard.

Begin to Enlarge Naval Training Stations at Once

(By United Press)
 Washington, April 6—The enlargement of all naval training stations will begin at once under orders from Secretary Daniels. German ships are being confiscated or requisitioned for the period of the war. It is likely the government will pay for their use after the war is over.

British Vessel Goes to Bottom from Torpedo

(By United Press)
 Washington, April 6—The unwarmed torpedoing of the British vessel Cannizaro, carrying an American fireman, has been reported to the state department by Consul Hull. No lives were lost. Consul Frost reporting further details of the torpedoing of the liner Canadian said the action of the submarine was flagrant contempt for the safety of boats in quitting the ship.

Proclamation!

I, R. A. Beise, Mayor of Brainerd, hereby formally proclaim to our people that inasmuch as Congress and our President have declared that a state of war exists between these United States and Germany, that we show our patriotism by holding a mass meeting of all of our citizens in the Park Opera House on Tuesday evening, April 10th at 8:00 o'clock P. M., for the purpose of listening to patriotic prayer, addresses and music, and I hereby appoint the following citizens as committee on arrangements:

C. A. Albright,
 Chairman
 A. J. Halsted,
 W. H. Gemmell,
 Hugo Schwartzkopf,
 J. P. Anderson,
 H. P. Dunn,
 P. B. Nettleton,
 J. W. Koop,
 F. S. Parker.

I also earnestly request that our people display our flag from their places of business and residences, and refrain from public criticism of our government, and that we maintain a calm and considerate attitude towards all, and that all our people, irrespective of their place of birth, rally to the support of our President, our Flag and our Country.

Dated at Brainerd, this 6th day of April, A. D. 1917.

R. A. BEISE,
 Mayor.

British Artillery Blew up Munition Depot, Earth Shook

(By United Press)
 With the British Armies, April 6—British artillery fire blew up huge munition depot behind the German lines, the flames reaching a height of 300 feet and the earth shaking as though an earthquake had occurred.

British Ships Warned Look Out for Submarines

(By United Press)
 New York, April 6—Wireless warnings to British and allied ships to look out for German submarines near the trade routes from New York to South American ports have been received.

SEIZE INTERNED GERMAN VESSELS AMERICAN PORTS
 (By United Press)
 New York, April 6—Ninety-one German vessels in the most important ports are to be seized today, and already five vessels and crews at Boston, one at New London, Conn., three at Baltimore and two at New Orleans have been seized.

FRENCH MAKE GAINS

(By United Press)
 Paris, April 6—French forces make large gains at North Landre Court and South Oise, and reoccupied the trenches near Rheims, is the official report.

Brazil May Declare War on Germany

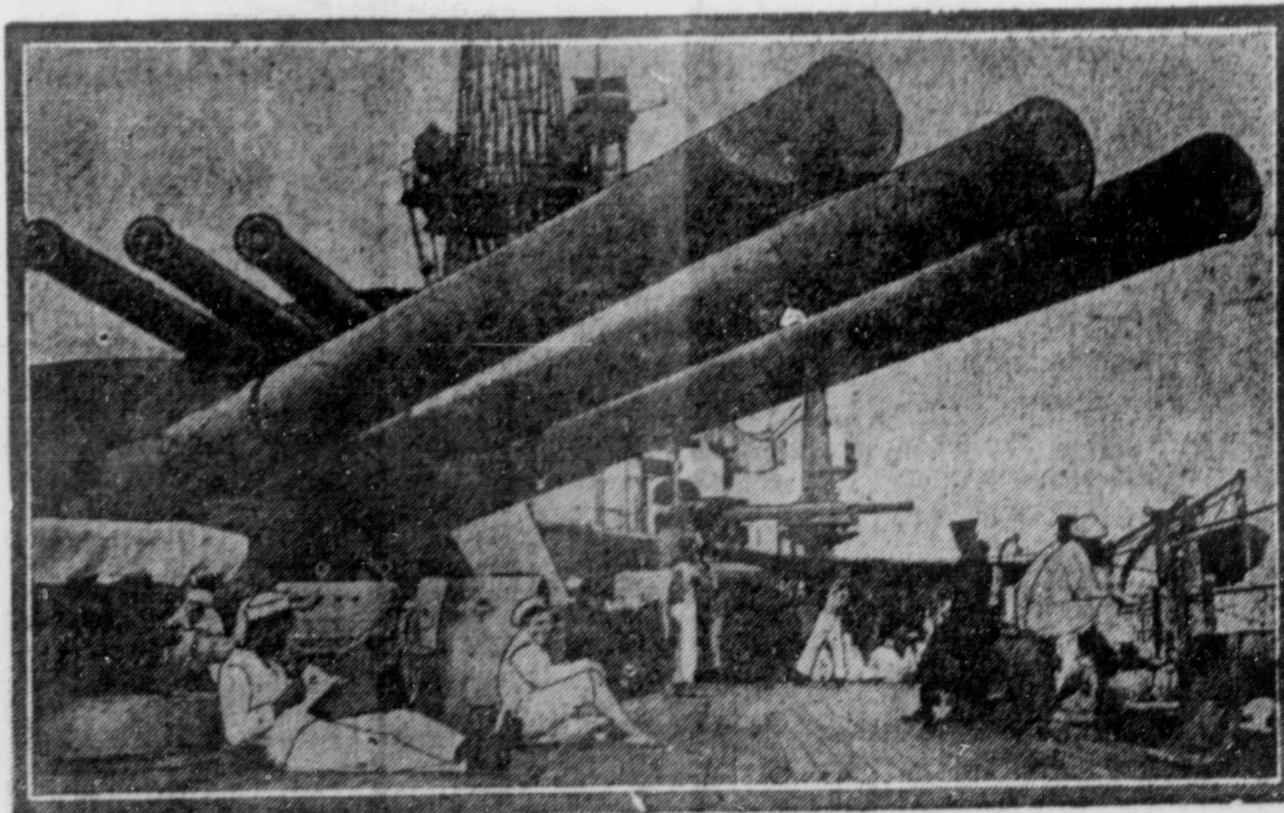

(By United Press)
 Rio de Janeiro, April 6—Brazil may declare war on Germany, and the intense anti-German feeling is evident because of the sinking of the Brazilian steamer Parana and the loss of three Brazilian lives.

The interned German ships in port may be seized and it is expected Bolivia will follow the action of Brazil.

Submarines in Gulf of Mexico

(By United Press)
 Galveston, April 6—Reports here are to the effect that the government has evidence of the presence of submarines in the Gulf of Mexico.

Six of the Great 14-Inch Rifles of the Pennsylvania

These mighty 14-inch rifles of the battleship Pennsylvania, flagship of the Atlantic fleet, the whereabouts of which will not now be revealed by the secretary of the navy, are the superior of anything in the German navy. She could stand off some miles out of reach of the whole German navy and sink vessels without being in danger.

A LODGE AMERICAN IN ITS EVERY FIBRE

Elks Hold Interesting Ceremonial at Same Hour Congress Acting on War Measure

Impressive Ceremony at Gathering About the Altar---New Members Admitted--Officers Installed

Alfred Fritzen Pleads Guilty to Conspiracy

(By United Press)
 New York, April 6—Capt. Alfred Fritzen plead guilty in federal court to having conspired with Capt. Hans Tauscher to blow up the Welland Canal, and was sentenced to 18 months in the Atlanta, Georgia, prison. Fritzen got his first papers in 1912, and was formerly a captain in the German artillery.

Trapped in Mine

(By United Press)
 Fernie, B. C., April 6—It is believed that 34 men were trapped and lost by an explosion in mine No. 3 near Coal Creek.

CLOSING IN ON ST. QUENTIN

(By United Press)
 London, April 6—The British and French are closing in and closing around St. Quentin, and desperate fighting is reported.

DRAWS SWORD FOR ENTIRE HUMANITY

Geneva, April 6—Great emotion has been caused in the little Swiss republic by the news that its great republican sister is about to enter the war. The Journal de Geneve says:

"Germany sees a new adversary ranged against her, a great country of 100,000,000 inhabitants, whose wealth is immense, whose resources are inexhaustible and who will bring into the war its inventive genius and the steadfastness and energy of its invincible people. It is not only for its individual rights; it is for entire humanity that America draws the sword."

"Far from the battlefields of Europe, divided in its judgments concerning the causes of the war, interested in keeping peace as a nation which counts more than 15,000,000 foreign born among its members, exploited more than any other neutral nation by German propaganda and hostile to all militarism, America would certainly not have drawn the sword if the public conscience had not been outraged by an accumulation of horrible acts, culminating in the systematic devastation of French provinces."

"Will the German people understand the meaning of the American flag flying over European battle fields?"

MAY USE BREST AS BASE

French Bill Offers Port to American Naval Force.

Paris, April 6—The first war measure to be taken in connection with the expected entrance of the United States into the war was introduced in the chamber of deputies. It provides for an agreement with the United States, if necessary, for the use of the port of Brest by American naval forces.

The measure provides generally for utilization of the port to the best interests of the national defense.

A lodge American in its every fibre, the order of Elks' ceremonies last night appealed with solemn interest to every member present. The flag took on a deeper meaning. Every line of the ritual breathed patriotism. All were aware that at the same hours congress was in session and was acting on the war measure. And pledging their loyalty anew to the flag, one of the highest and most representative gatherings of Elks in this city gathered about the altar with the new candidates initiated and expressed their faith in America and love for their country.

Visitors were entertained from many cities for Elks had made it a point to see that every brother Elk did not spend a lonely evening in a hotel lobby but that he had scores of brothers all about him here.

The new members initiated were Bruno Almquist, William Bamberg, Delore J. Rochon and P. N. Haughtell of Crosby, Herman Linnemann, C. Katz and Harold Webb of Brainerd.

Mr. Almquist, when called on for a talk, said the ritual had appealed to him with particular force. As a member of the naval militia at Crosby, he expected the sixty boys to be called out very soon.

Among the visitors present were W. H. Beebe of St. Cloud, Joseph Pollock of Virginia, W. F. Mear of Bemidji, A. J. Rush of Mankato, J. A. Fitzgerald of Fargo, N. D. They gave short talks and men of Brainerd lodge also responding were Mayor and Postmaster Louis Bauer of Crosby who suggested a picnic in the summer at Crosby and Ironton and assured Brainerd they would have a good time there; R. R. Wise, just returned from a visit in Florida; E. J. W. Donahue, of Duluth, who told a funny story; Marc Atkinson of Crosby soon to leave for Hibbing; Frederick J. Miller of Pine River; M. J. Reilly of Detroit; O. E. Skalmann of Ironton who told a fisherman yarn; H. P. Dunn who told a good one on some Brainerd brothers.

Officers were installed by Past District Deputy Col. C. D. Johnson and he did his work well. In the ritualistic part of the ceremony Col. Johnson was very eloquent and many congratulated him at the close. The new officers installed are:

Exalted Ruler—R. R. Gould.
 Esteemed Leading Knight—A. J. Ellison.
 Esteemed Loyal Knight—George Coult.
 Esteemed Lecturing Knight—Paul G. Clarkson.
 Esquire—C. D. Johnson.
 Secretary—J. C. Higbe.
 Exalted Ruler Gould announced his appointments which were:
 Chaplain—W. H. Crowell.
 Inner Guard—John F. Hurley.
 Tyler—F. S. Parker.
 Organist—Walter Frampton.
 The sick committee is C. E. Peabody, Fred Allison and Archie Purdy.
 The entertainment committee is William V. Tureotte, B. L. Lagerquist and Al Mraz.

At the conclusion a fine luncheon was served, a good, satisfying warm one and all did justice to the same.

WOMAN'S REALM

GIVE MEMORIAL WINDOWS TO CHURCH

Two are Presented First Congregational Church by Mr. and Mrs. H. W. Congdon

SUBJECTS THEY REPRESENT

"The Gleaner" and "Sacramental Cup" for the Late Mr. and Mrs. John C. Congdon

A most beautiful gift has been presented to the First Congregational church in the form of two memorial windows by Mr. and Mrs. H. W. Congdon.

These windows are a memorial for the late Deacon John C. Congdon and Deaconess Louisa M. Congdon.

The subjects of the windows are entitled "The Gleaner" and "The Sacramental Cup." They make a most appropriate memorial for these much respected members and citizens.

The work was executed by the Pittsburg Plate Glass Co. and is a credit to their high class work as advertised.

The interior of the First church is becoming very beautiful. This makes five memorial windows within the last six years and they are a silent inspiration and testimony to the lives of those who have passed hence.

Birthday Surprise Party

Mrs. A. J. Starritt's birthday was made the occasion of a surprise party on Wednesday evening. Covers were laid for ten at the luncheon. The decorations of the dining room were pink and green, carnations being used, the front room was in green and white, with big bouquets of dark roses. Mrs. Starritt was presented with a hand painted china creamer and sugar bowl. Mr. Starritt's present was huge bouquets of flowers.

St. Paul's Friday Evening

St. Paul's Episcopal church Friday evening at 7:30. Lantern service illustrating "The Passion of Christ." All are welcome to the service. Saturday afternoon preparation service for Easter communion at 4 o'clock. The service will last twenty minutes.

SURPRISE PARTY

Given Mrs. Wm. H. Rosenkranz of First Avenue Northeast, on Thursday Afternoon

A surprise party was given Mrs. William H. Rosenkranz, of First Ave. Northeast, on Thursday afternoon. All enjoyed the occasion immensely. A luncheon was served.

Among the ladies present were Mrs. L. J. Albert and Miss Rosenkranz of Deerwood; Mrs. Sows, Mrs. Spencer, Miss Patterson, Mrs. Hutchinson, Mrs. Mudge, Mrs. Sathers, Mrs. Shanks, Mrs. Gallagher, Mrs. Guilds, Mrs. Carl Behme, Mrs. Geo. Behme, Mrs. Wooden, Mrs. Kelly.

HOSE COMPANY NO. 2

Will Give Their 35th Annual Ball at Gardner Auditorium Easter Monday, April 9

The occasion will be one of those pleasant affairs that the company is noted for and which are always looked forward to with interest. The Blue Ribbon orchestra has been engaged and will furnish music and tickets are being sold by the members at \$1.00. 25516

Evangelical Church, N. E.

Rev. E. H. Bollenbach, P. E., will preach at the Evangelical church of N. E. Brainerd on the evening of Good Friday. Services are to begin at 7:45. After the service the 4th quarterly conference will convene.

Good Friday Service

In the Swedish Baptist church this evening at 8 o'clock a special Good Friday service will be held. Pastor Colvin will speak on the subject: "The Meaning and Message of the Cross." All are cordially invited to attend.

Good Friday Service

A Good Friday service will be held in the German Evangelical church this evening at 7:45 P. M. The pastor will preach in the German language.

Miss Preparedness and Her Soldier Boy

Miss Preparedness is her shown in a suit made of army cloth. It is of such a pattern that she may wear it on land or sea or in the air. She is ready to step into an automobile to carry army despatches or she may step into her airship for the same purpose. Her Soldier Boy is shown

equipped for war. In his pack are his blankets, his shovel for digging trenches, his canteen and his bak. He has his cartridges and his rifle. The equipment was designed with the idea of minimum weight and maximum efficiency.

Husband Beware Your Bank Roll is in Danger

BY MARGARET MASON, (Written for the United Press)

Beads are going to waist this year. Yet plenty are left 'tis said. To account of the lot. That whether or not. Have gone to Millady's head.

New York, April 6—This is the season of the beading reign. Belts certainly reign supreme as the fad of the moment and the shops and waistlines of the fair are simply flooded with them, provided of course that they are beaded. For a belt without a bead on these days is as flat as a draught of malted brew is without the same.

Some of the beaded belts are flat anyway. These are the long flat girdles elaborately and solidly beaded 17 gayly colored designs with fringed ends of beads that are worn with the loose, straight lined chemise gowns. These are suggestive of and indeed many are fashioned by Indians—South Central and our own North American tribes. Indian rope girdles of beads with beaded tasseled ends are also popular.

For wear outside of the new loose silk coats and wraps are the oriental and royal girdles of metal links alternating with large beads, disks or squares of imitation jade, crysephe and lapis lazuli or with cameos, Chinese coins or jet nail heads.

The more fantastic the color combinations of these girdles, the more elaborately chased and carved the metal links, the more effective and stunning they are. Almost all of them finish with omnipresent tassels in metal or beads.

Though she struggles to be free, lovely woman still paradoxically loads herself with chains. Not content even with these beaded chain belts and girdles she further shackles herself by "kaily slipping her neck into a rope of beads and metal links that ape the metal girdles on a finer scale. An artistic one of slender silver links broken here and there with balls of blue lapis added just the right touch to a charming putty toned gabardine trimmed in embroidered bits of lapis blue and putty jewels worn the other day. Really nowadays your costume is not complete unless you wear one of the metal girdles or neck chains, earrings and finger ring whose beaded charms bring out the telling color note of your gown.

Behold, the evolution of the bead certainly makes the busy B. From bag to belt from belt to bosom and from bosom to "bean" we have it. For now every swagger bonnet has a bit of beading on it. Some of them are beaded to beat the band with bands of beads and yet others rely solely on a single ornament of beads in front, back or side or wherever the beads will be most telling.

The ornaments rather ran to animal effects and beaded bunnies, birds, felines and fishes perch rakishly

abait a bonnet. Chanticleer in gaudy beader is a popular favorite though it isn't necessarily a cocked hat that sports this cocky design.

Beads of wood, beads of glass and bead of every known composition, color and design adorn our headgear and thus the bead craze may be said to have reached its proper level for you see whether on beer or bonnets you can't keep a good bead down.

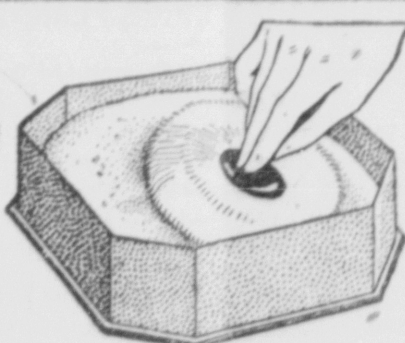

It is odd to pause in the midst of our beads and consider how all the world has a beaded bend in common, and how all the four corners of the earth meet us on a fashionable footing or rather beading. From China we gather in a glory of beads and Indian and Turkey lay further ones at our fashionable shrine. We sport Indian beads from the three Americas glass and pearl beads from Italy and to account for the impetus given wooden beads in our hat ornamentation comes this story.

A village of French peasants for years had piled their wooden bead craft. When their village was shelled by the German guns the survivors fled to Paris. Here knowing nothing else save their life work of fashioning beads of wood they returned to their craft. They turned them out to be eagerly seized upon by the Parisian modistes as just the novelty they yearned for. Hence as usual the reply to all our present day fads and fancies: the war, meadames, is again the answer.

Had Trouble Four or Five Years

Many people suffer from bladder trouble when they can be quickly relieved. W. J. Furry, R. F. D. 2, Salem, Mo., writes: "I was bothered with bladder trouble four or five years. It gave me a great deal of pain. I took different medicine, but nothing did me any good until I got Foley Kidney Pills." H. P. Dunn, druggist.—Adv. mwf

GET YOUR GARDEN PLOWED RIGHT NOW

(Superior Telegram Editorial)

A vegetable garden is a comparatively small affair, but in the aggregate many gardens mean quite large results. The campaign in support of more vegetable gardens has spread all over the country. It is being encouraged in public print everywhere as being specially adapted to cities, or to those parts of cities that have vacant lots, especially suburban parts. This may have a very noticeable effect on food supplies during the coming summer.

A GARDEN IN YOUR YARD

(Logansport, Ind., Pharos-Reporter)

We would like to give the people of Logansport some wholesome advice on heading off the high cost of living. Of course, it is too late in the season now to make the plan work for last year, but it is just the right time to jog your good judgment and keep you awake to the opportunities that will come with the early spring.

Did you know that Nature is prodigal in its yield to the person who will scratch the ground and plant the seed? Did you know it is a fact. One little tomato plant, purchased from a grocery for 1½ cents, planted in your back yard and given as much or less attention than you give a geranium on the sidelines, will give you luscious ripe tomatoes for your table numerous weeks during the tomato season. That is one example and there are myriads of them.

Connected with every home in the city is more or less of back lot or side lot that yields nothing, not even a good crop of grass. This waste land, cultivated and planted with tomatoes, beans, peas, lettuce, mangos, cabbage, potatoes and other things that will suggest themselves to your mind, will yield sufficient to furnish your table with delicious home grown vegetables and green stuff to last you throughout the summer season and put cabbages and potatoes and mango pickles and chili sauce and sauerkraut into your cellar for the winter season and give to you delicious food that no cannery or any other person, place or thing can give you. Do you doubt it? We dare you to try it.

And along with this tangible, material result of your getting next to the soil and realizing the gentleness and friendliness and bounty of dear old Mother Nature will come a ruddy face and strong limbs and a splendid appetite and a new light for your eyes and an absence of wrinkles from your face, and life will take on new joys and a new meaning. Again we dare you to try it.

Many a man imagines that he knows all about the financial question because he once had occasion to cash a two dollar check.

HOME OF E. O. WEBB, 503 HOLLY STREET.

The material for this beautiful home was furnished by our company.

For twenty years now, we have had the pleasure of co-operation with the home builders in this community and assisting them in the building of their homes.

The test of time is the test that tells, and our record during these twenty years is our very best reference and recommendation.

Twenty years of experience in home building has given us a wide knowledge of what it takes to build a home.

If you are contemplating building a home or a building of any kind, it would be to your advantage to consult our office for plans and suggestions.

FRIDAY, APRIL 6, 1917

Your Flag and my Flag!
And, oh, how much it holds
Of your Land and my Land
Safe within its folds.
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—
The Red, the White, the Blue!

The late Richard W. Sears amassed a fortune of many millions of dollars in the catalogue business that still bears his name, and of which sum \$16,000,000 was left to his wife. Suit has now been commenced by the city of Chicago to collect \$1,703,621 in back taxes. The people of the northwest, many in this section, have contributed to the big fortune of the Sears & Roebuck members and in fact the catalogue business has become a mania with many even with the same advantages offered by local merchants.

Minnesota's annual production of fur approximates in value the sum of \$1,310,875, a much larger amount than the average individual imagines. There are taken annually about 3,000,000 muskrats, 75,000 skunk, 20,000 wolves, and various numbers of at least twelve other fur-bearing animals. Fur farming has been engaged in to some extent, one operator reporting sales to the amount of \$12,000 worth of foxes; another \$6,635.00 worth of skunk. The industry is increasing and offers inducements.

Dispatch readers fully appreciate the news service, both local and telegraphic, which is attested by the daily additions made to the already large subscription list. In the stirring events sure to follow the war declaration the Dispatch will be in the front rank with the latest and best service obtainable. You get the news and it is reliable if you read it in the Dispatch.

Now that war is a certainty it is more than ever necessary for those who can to enlist for a big crop output, give it an impetus that will insure a production equal to the demand. Prices will be high, there will be a big army to feed and help will be scarce. Your garden plot will be a source of comfort.

That war is hell is conceded on all sides but there are things worse than war, and President Wilson's statement that "Right is more precious than peace," is fully appreciated by the American people.

Six senators and 50 house members voted against the war resolution, and their names will go down in history—in an unenviable light.

Singing on Carpet.

Standing upon carpet has a tendency to muffle the voice, since a layer of inelastic and nonconducting material is then interposed between the seat of voice production and the floor, which, when it is not covered, acts as a sound board, taking up the vibrations and giving increased effect and distinctness to them. This can be illustrated by placing a timepiece first upon a rug or carpet and then upon the bare floor. In the latter position the ticking is much louder, because the vibrations of the clock are then much more forcibly communicated to the floor and so to the air of the room and finally to the ear by actual contact between the clock and the floor. A carpet damps or kills these vibrations because it is a bad conductor of sound. The difference, which is so audible in this case, is in some degree to be detected when the voice is heard under similar conditions.

PASSES BY
373 TO 50House Accepts War
With Germany.

PRESIDENT WILL SIGN

As Debate Proceeded Opposition Gained Steadily.

Washington, April 6.—President Wilson will sign the resolution as soon as Vice President Marshall has attached his signature in the senate. It formally accepts the state of belligerency forced by German aggressions and authorizes and directs the president to employ the military and naval forces and all the resources of the nation to bring war against Germany to a successful termination.

Washington, April 6.—By a vote of 373 to 50 the house at 3 a. m. today passed the resolution declaring a state of war exists between the United States and Germany.

With the signing of the resolution by President Wilson the United States formally will have entered the war against the German empire.

Up to 2 a. m. more than eighty representatives had made speeches on the resolution and the opposition gave evidence of growing until it was predicted more than fifty votes would be recorded against the proposal.

This was attributed to the action of Democratic Leader Kitchin, who spoke against the step unexpectedly.

Many who were known to be against the resolution, but who were expected to vote for it without debate, immediately took up the cue, some entering the debate and going on record as opposing any war step.

Two Amendments Rejected.

The house rejected an amendment by Representative McCullough providing that none of the United States military forces may be transported for service in any European country except on express approval by congress.

Representative Britten's amendment prohibiting use of any part of the American forces in Europe, Africa or Asia except those troops who specifically volunteer for such service was also rejected.

For the most part the discussion of the resolution proceeded with an air of unemotional acquiescence, scores of members making brief speeches to put themselves on record as reluctantly accepting war as the only course of honor.

All day the debate revealed an unexpected strength in the minority opposing the resolution.

This surprising accession to the minority ranks was attributed to the efforts of Democratic Leader Kitchin, who took the floor and in a dramatic speech announced he could not with a clear conscience vote for war.

Supporters Sure of Victory.

Supporters of the president's course were not concerned over the defection, however. Sure of a great majority they permitted the roll call to be delayed only so that every one might be heard.

A suggestion by Chairman Flood of the foreign affairs committee that debate be closed before midnight met with loud shouts of disapproval and even the opposition of a considerable number of members opposed to voting on Good Friday was insufficient to get an agreement to vote by midnight.

Mr. Kitchin's opposition drew an immediate following from among the group who have opposed preparedness and armed neutrality and many of them who sat silent and glum in the rear of the chamber throughout the day moved down in front and spoke against the resolution.

One of the most earnest speeches in behalf of the president's course came from Republican Leader Mann, who declared Germany had deliberately affronted this country and that only war could save the national honor.

RUSSIA HELD PEACE KEY

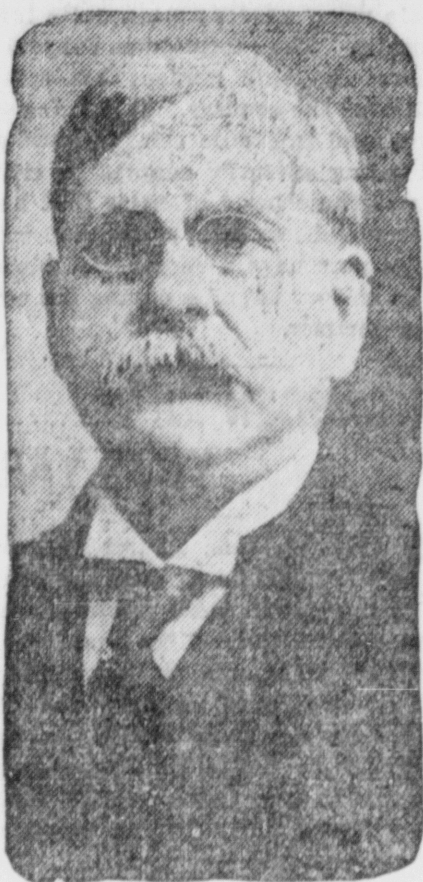

Bulgarian Minister in Germany Says Revolt Cracked Entente Structure.

Amsterdam, April 6.—D. Rizov, Bulgarian minister to Germany, in an interview with the Vossische Zeitung, says the world's center of gravity has shifted from the west to the east and that it is not America who will decide the issue of the war, but Russia.

"As soon as this gigantic empire began to wobble," said M. Rizov, "the whole entente structure began to crack."

"The process of political decomposition in Russia could not be stopped. The only government which can endure in Russia is one which will bring the people a long desired peace."

LAFAYETTE YOUNG.

Former Iowa Senator
Says "Lick Germany."

Ames, Ia., April 6.—Former Senator Lafayette Young of Iowa told state college students in an address here that the present duty of the United States is to "lick Germany." He denounced German "sympathizers" and said that teaching of the German language in our schools should be discontinued.

FRANCE WILD OVER
AMERICAN SUPPORT

Paris, April 6.—Extraordinary scenes of enthusiasm for the United States were witnessed in both houses of parliament. Not since the historic session of Aug. 14, 1914, has there been a parallel.

Alexander Ribot, the venerable premier, arose immediately after the chamber came to order and began an address in solemn tones.

The deputies listened with unbroken attention until the first mention of the United States then they broke out in applause. At first it was a decorous clapping of hands and then the whole house spontaneously arose; cheering for the United States and President Wilson.

The American ambassador, William G. Sharp, was in the diplomatic gallery. The deputies turned toward him and the demonstration continued. The ambassador stood up and bowed and the cheering was redoubled in intensity.

Premier Ribot continued his address but almost every phrase was interrupted by applause. Mr. Sharp was again obliged to arise and acknowledge an ovation when the premier said:

"The United States wishes neither conquest nor compensation."

BIG RESOURCES AT HAND

American Nation Well Prepared to Conduct Campaign.

Washington, April 6.—Actual and potential resources which, all told, probably never have been equaled by any other nation in the history of the world, are brought into the great war under the American flag.

Into the balance against Germany are thrown a navy in strength and efficiency among the foremost afloat; an army comparatively small, but highly efficient, backed by a citizenry of upwards of twenty millions, capable of military duty; industrial resources incomparably the greatest in the world, already mobilized for public service, and the moral force of more than one hundred million Americans awakened to their country's peril and united behind their president with a patriotic fervor reinforcing the spirit of 1776.

Although much remains to be done officials believe the nation's destinies are secure now, no matter how stubborn or prolonged may be the pressure of German militarism or how wide the scope of German intrigue.

KEEN INTEREST IN CHINA

Celestials Anxious to Take Active Part in Great War.

Washington, April 6.—China's immediate interest in the war policies of the United States was shown by a visit from Dr. V. K. Wellington Koo, Chinese minister, to Secretary Lansing to secure as complete and accurate information for his government as possible.

China was the only nation to follow President Wilson's suggestion to sever relations with Germany and is understood now to be considering following this country in the further step. By entering the war China would secure military rejuvenation, postponement of the Boxer indemnities, increase in her customs and a seat at the peace conference, while she would also risk a greatly increased foreign control in order to secure efficiency.

The allies would gain better access to China's immense munition potentialities for the Russian front, much greater man power and the uprooting of the German trade interests among China's 400,000,000 people.

WILL MOBILIZE
NAVAL MILITIASecretary Daniels Has Orders
Ready to Wire.

IMMENSE MILITARY BUDGET

Vast Scope of Administration's Plans for War Army and Navy Was Disclosed When \$3,400,000,000 Was Requested From Congress.

Washington, April 6.—The navy department completed preparations to flash telegraphic orders for the mobilization of 15,000 members of the naval militia and the naval reserve immediately upon the signing of the war resolution by President Wilson after it passed the house.

The Atlantic fleet has been maintained on a war basis since the national emergency was declared.

The 10,000 members of the naval militia and the 5,000 men in the various classes of the naval reserve will be employed immediately to fill up the complement of reserve ships and auxiliary and put in commission the first of the huge motor power patrol fleets for coast protection against submarines.

As yet there is nothing to indicate the compulsory service proposed for the army will be applied to fill up the navy.

Expect Flow of Volunteers.

An average of 250 new men a day is being added to the service and officials hope to find a great flow of volunteers when congress sets all machinery in motion.

"What we will term the 'material estimate,'" Secretary Daniels said, referring to the navy budget submitted, "is to provide for additional ships, guns and ammunition, various articles of ships' equipment, material and supplies of various kinds, for aviation, storage facilities for ordnance supplies, additional employees at navy yards and to meet the added expenses of the navy department."

The vast scope of the administration's plans for a war army and navy was revealed after a military budget of \$3,400,000,000 had been submitted to congress.

In broad terms it is proposed to quadruple the enlisted strength of the navy and to have in service within a year an army of a million trained men, including the first 500,000 to be brought to the colors by selective conscription.

Bills to carry out the program already are in the hands of the congressional military and naval committees.

ARMY OF 2,000,000
MEN IN TWO YEARS

Washington, April 6.—How the government plans to raise a war army of 1,000,000 men in a year and of 2,000,000 in two years was disclosed on the passage of the war resolution by the house.

A bill prepared by the general staff and approved by the president for submission to congress provides for the immediate filling up of the regular army and national guard to war strength of more than 800,000 by draft, unless enough volunteers enlist quickly, and for bringing into the service by late summer of the first 500,000 of the new force of young men between the ages of nineteen and twenty-five years to be called to the colors by selective conscription.

In drafting its program the staff recognized the fact the United States must start at the beginning and train first an army of 100,000 officers and noncommissioned officers to undertake the training of the thousands of youths who will enter the service with no notion of military duty or life.

200 WOODEN SHIPS PLANNED

Shipyards to Work at Capacity to Build Cargo Vessels.

Washington, April 6.—Immediate construction of wooden merchant bottoms, all that available ship yards of the country can turn out, has been determined upon at a navy department conference.

It was estimated that 200 of these vessels designed principally to carry food, munitions and other supplies to the enemies of the German government, can be built within four or five months and that they can be turned out in further allotments of 200 each successively three or four months. The capacity of the ships now planned will be from 3,000 to 4,000 tons.

MEASURE APPEARS IN HOUSE

Gives President Power to Requisition Ships Needed.

Washington, April 6.—Chairman Padgett of the house naval committee has introduced a bill to give the president flat power to requisition all ships needed to carry on the war.

The bill would be effective as soon as the war resolution passes.

FOOD WASTE OF
OF ABOUT 700
MILLION DOLLARS

"For partial immediate relief, every individual and community should consider earnestly the matter of food conservation and the limitation of waste. As a nation we seem to have a disdain of economizing. In many homes there is a strong feeling that it is 'only decent' to provide more food than will be eaten and that it is demeaning to reckon closely. The experts of the department of agriculture report to me that the dietary studies made by them point to an annual food waste of about \$700,000,000. Of course, the waste in families of very limited means is slight, but in the families of moderate and ample means the waste is considerable. Even if the estimate were reduced by half, the waste would still be enormous."

"The food waste in the household, the experts assert, results in large measure from bad cooking, from improper care and handling, and, in well-to-do families, from serving an undue number of courses and an overabundant supply and failing to save and utilize the food not consumed. As an instance of improper handling, it is discovered that in the preparation of potatoes 20 per cent of the edible portion in many cases is discarded."—Secretary of Agriculture, March 3, 1917.

THE ABUSE OF SOAP.

Too Free Use of the Cleansing Agent May Injure the Skin.

"The oft quoted aphorism attributed to Wesley that 'cleanliness is next to godliness' constitutes an article of belief among civilized peoples," says the Medical Record. "There is a strong prejudice against dirt in general and particularly against personal uncleanness. The prejudice is healthy and to be encouraged, but should not be allowed to become a fetish."

This is part of a review of an article by Dr. Frank Barendt in the Liverpool Medical and Chirurgical Journal on the abuse of soap. Dr. Barendt attributes many skin troubles, especially in children, to too much soap. Among these are the furfuraceous patches on their faces. Nurses, he says, often use too much soap on their patients, especially when these are confined to bed, when the "secretion of their skin is sluggish and the excessive removal of natural grease leaves the skin rough and branny."

The delicate skin of newborn babies is sometimes irritated by the zeal of the nurse in rubbing with soap and water.

Dr. Barendt says the best toilet soap is a combination of oleate and stearate of sodium. But even it should be used with discretion.

With the Fingers!
Says Corns Lift Out
Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.

Beauty and Attractiveness Without Extra Cost

We believe that any one will admit that the above design is very attractive. The photograph of it which we have here at our office brings out the beauty much better than this newspaper cut does.

Now you can build JUST A HOUSE for about the same money that this beautiful cottage will cost you. You could perhaps have as much rooms and the house could be built warm and comfortable too. But why not have a home that will be good to look at as well as enjoyable to live in when it doesn't cost much, if any more, than JUST A HOUSE.

Our "Ye Planry" Service

Gives you a choice of a wide variety of beautiful homes every one of which has distinctive character in outside looks and also interior arrangement.

The best home designers in America have produced these plans and embodied in each of them all the permanent beauty, comfort and convenience possible.

As to Cost

—We want you to call and see the photographs and the floor plans and let us tell you the price. You will have some pleasant surprises when it comes to price.

Call soon.

PUT A FLAG ON YOUR HOUSE

Woman's Relief Corps Urges Every Brainerd Citizen to Show His Colors on Home

FLAGS FLASHING ALL OVER CITY

Telegram From United Press Gives News of House Vote 373 to 50 at 3 in Morning

By resolution adopted by the Woman's Relief Corps of Brainerd, all citizens are urged to show their colors, to put flags on their homes and offices.

Flags are being eagerly sought and are flashing into view in every part of the city.

Early in the morning the United Press telegram gave the news of the vote of the house, 373 to 50 in favor of the state of war resolution.

***** BRAINERD'S ODDEST STORIES OF TODAY *****

A drummer boarded the St. Paul afternoon train Thursday. All seats were taken. He walked to the smoker and found the front half section barred. He glanced in and recognized Al Jester, deputy U. S. marshal escorting 18 blindpiggers to Minneapolis. "Al," said the drummer, "I'm willing to wear handcuffs clear to Minneapolis if you'll only let me sit down in that empty seat near you." And Al let him sit there, all so another friend. Drummers will go to any lengths to get a seat.

SUNDAY SCHOOL OFFICERS

Annual Election Held Thursday Evening by Presbyterian Sunday School

The annual election of officers of the First Presbyterian Sunday school was held on Thursday evening, April 5, and the following officers were elected:

Supt.—George Berggreen.
Asst. Supt.—H. A. Pflughoeft.
Home Dept. Supt.—L. D. Greeno.
Cradle Roll Supt.—Mrs. H. A. Pflughoeft.
Secretary—Mrs. Fred Luken.
Treasurer—J. A. McKay.
Organist—Miss Beatrice Morrison.
Asst. Organist—Miss Gladys Hess.
Primary Department:—
Supt.—Mrs. F. M. Hagberg.
Secretary—Mrs. D. C. Holleman.
Treasurer—Asa French.
Organist—Ellen Dillan.

ASK FOR A WAGE INCREASE

Following a conference with representatives of the machinists in the employ of the Northern Pacific at which demands for increased wages were discussed, H. M. Curry, mechanical superintendent of the company, said that no definite action had been decided on.

The machinists gave the thirty days' required notice, for an increase of 25 per cent in wages, and the conference with Superintendent Curry by their representatives was to discuss the proposed new wage scale.

The demands are made by machinists, telegraph operators, boiler-makers and carworkers on the Northern Pacific as well as the Great Northern, Omaha and Soo lines.

NEW DEPOT FOR TROMMALD

Trommald, Minn., April 6—Building operations are being pushed at Trommald as fast as possible in order to meet the growing needs of the village. Next week the division superintendent of the Northern Pacific will arrive to select a site for the new depot.

Edward R. Syverson has made arrangements to build six more cottages for rental purposes, and outside investors have agreed to put up a like number.

Mike Zakotnick has received the fixtures for the postoffice and has also bought a five passenger Ford for carrying mail and passengers.

Another desirable improvement is the purchase of two carloads of cement for sidewalks, enough to lay a half mile of walks along Main street.

***** FEED YOUR FAMILY FIRST *****

COFFER DAM IS BLOWN OUT

Charge of 425 Pounds of Dynamite Used at The Northwest Paper Co. Plant Yesterday

LIFTS EARTH AND ROCKS 40 FT.

Temporary Work Was Thus Removed on the Completion of Power House and Dam

Using a charge of 425 pounds of dynamite, The Northwest Paper Co. blew out a temporary coffer dam at its plant, its days of usefulness being over, and the discharge at 5:30 yesterday afternoon gave a deep thump as it lifted earth and rocks forty feet, making comparatively little noise as it was banked in by a wall of water on both sides.

The temporary work was thus removed on the completion of the power house and permanent dam improvements.

Mahlum Lumber Co. Advertises its Lumber and Building Material and Pictures Homes

WAS BUILT FROM ITS MATERIAL

Some of Prettiest and Coiest Residences are to be Shown in the Series Presented

The Mahlum Lumber Company has adopted a unique method of advertising its lumber and other building material by showing Brainerd residences in which such material was used in construction work.

The photographs were made by Lars Swelland. The Mahlum Lumber Co. has been years in the business, and knows the wants of the trade.

When using sandpaper to remove old paint, damping it with benzine will cause the work to be accomplished sooner.

Fire Under Water.

Fire under water may be produced by placing some small pieces of phosphorus in a conical shaped tumbler and then covering them with the crystals of chlorate of potash. Next fill the glass with water and then add a few drops of sulphuric acid, the acid to be applied directly to the phosphorus and potash crystals by means of a long tube. If the experiment is properly carried out tongues of bright red flame can be seen flashing up through the water, the intense chemical heat produced by the action of the sulphuric acid on the potash and phosphorus being sufficient to indame the latter, although entirely covered with water.

When skinning fish it should be remembered that round fish are most easily done if commenced from the head downward; flat ones, on the contrary, from the tail end.

Cut This Out—It is Worth Money

Don't miss this. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield, Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing: Foley's Honey and Tar Compound for coughs, colds, croup; Foley Kidney Pills, and Foley Cathartic Tablets. H. P. Dunn, druggist.—Advt. mwf

NOTICE!

JANITOR WANTED!

The building committee of the Board of Education, will consider applications for janitor of the Lowell building. Must be able to furnish first class engineering papers. Apply at once to the Secretary

LOUIS F. HOHMAN

Ransford Block, S. 6th St.

DRESSING UP

is one way of asserting your good taste

DRESSING UP IN ADLER COLLEGIAN CLOTHES

is a way of asserting, both good taste and good judgment.

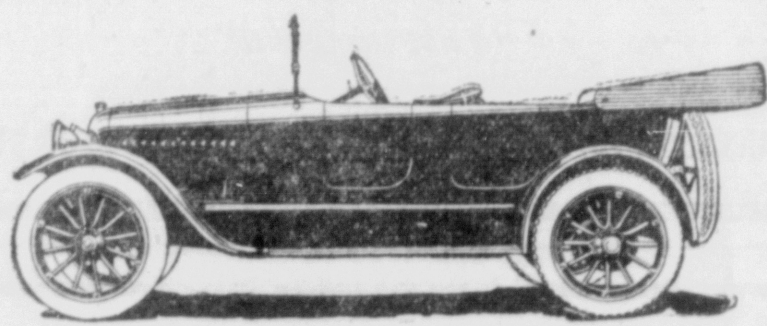

Wherever your work or pleasure take you *Adler Collegian Clothes* will secure for you that admiration and respect that are accorded the well dressed man the world over.

Adler Collegian Clothes are tastefully designed according to the newest and best standards, conscientiously tailored, and sold on merit.

The new Spring and Summer suits are now here. A fifteen minute inspection will give you a new idea of clothing values, whether you decide to purchase or not. Isn't this alone worth your while?

JOHN CARLSON & SON

Roomy Five-Passenger car with Six-Cylinder Overhead Valve Motor

To the initiated the fact that the Grant Six has an Overhead Valve motor of exclusive design and recognized power and flexibility, will at once place the Grant Six above the plane of ordinary, moderate priced cars.

The advantages offered by the Overhead Valve type of motor are greater cleanliness, greater power, greater economy.

But better than any words, a demonstration of the Grant Six will reveal motor qualities you might be disposed to think incredible in a car of the Grant Six price—

Flexibility, silence, smoothness and balance. Come and see.

There are other features of the Grant Six that will please you. Come and see. Come and compare.

WANTED—I have customers for residence property and vacant lots. List your property for sale with Jas. R. Smith, Sleeper block.
Repudiated National Debts.
Spain, at one time by far the most powerful of European nations, was the earliest power to contract a national debt, which in 1556 only amounted to the modest sum of £1,000,000. By 1610 it had grown to £40,000,000 under Philip III, after whose death the whole of it was repudiated.
France in 1643 began to incur her debt, chiefly through the wars of Louis XIV, and the lavish expenditure in building Versailles. In the later years of Louis XVI, this amounted to £48,000,000, only to be repudiated on the establishment of the republic, when some creditors received 33 per cent and others nothing.

FRENCH SUFFER SLIGHT REVERSE

Germans Attack on Front of a Mile and a Half.

REPORTS ARE CONFLICTING

Paris War Office Admits Some First Line Trenches Were Taken, While Berlin Reports That Sanguinary Defeat Has Been Inflicted.

London, April 6.—The Germans and French have met in a sanguinary engagement northwest of Rheims, where the Germans, with picked forces, attacked on a front about a mile and a half long between Sapienell and the Godat farm.

The exact result of the battle is belated by conflicting statements from the Berlin and French war offices.

The Paris war office admits the Germans occupied portions of the French first line trenches, but says the attack failed over the greater part of the front.

A Berlin official communication, received by way of London, says the Germans inflicted a sanguinary reverse on General Nivelle's troops in this region and that 800 men were made prisoner.

On the battle front in the region of St. Quentin there have been artillery duels between the French and Germans.

British Take Two Villages.

On their part of the line the British have captured the villages of Basse-Boulogne and Ronsoy, northeast of Peronne.

Here the Germans suffered heavy casualties by being caught in their own wire entanglements and raked by the fire of the British machine guns.

Additional gains for the British east and northeast of Metz-Eu-Couture also are chronicled by the British war office.

On the Eastern front, according to Petrograd, the Russians have reached the right bank of the Middle Stokhod river, on the left bank of which the Germans defeated them in a sanguinary encounter Wednesday.

Petrograd admits that of two regiments of the Fifth Russian rifle division only a small number of the men were able to cross the river.

Heavy fighting has taken place between the Austro-Germans and Russians in Northern Galicia. In six attacks the Russian lines were invaded twice, but the Russians in counter attacks dislodged the Austro-Germans and recaptured the positions, according to Petrograd.

BERLIN DENIES NEW PEACE MOVE RUMORS

Amsterdam, April 6.—A Berlin dispatch to the Koelnische Zeitung says that the rumors of a new peace offer of the central powers, which have arisen following the meeting of Emperor William and Emperor Charles and Count Czernin's statement, are incorrect.

The dispatch says, however, that the principle, repeatedly officially stated, of the readiness of the central powers to enter negotiations for "an honorable peace" is unchanged.

"Regarding the preliminaries for these negotiations," says the paper, "nobody need be in doubt that they cannot be altered by events in America. We are in possession and await calmly developments in the enemy camp. We shall not allow this calm, which is founded upon success on land and sea, to be snatched from us."

LOSE STRONGEST NEUTRAL

Danes Regret Entrance of United States Into War.

Copenhagen, April 6.—America's entry into the war cannot be said to have been received with favor in Denmark, either in official circles or by the public at large.

Denmark and other small European neutrals during the war have been endeavoring to maintain not only normal conditions of life, but even necessary supplies for their business existence. To them the alignment of America is a factor of such moment that apprehension regarding their own future difficulties overshadow their sympathies with one side or the other.

The loss of the moral support of the neutral United States in the effort to maintain political and commercial neutrality as between the two groups is deeply regretted in Copenhagen.

NEW MOVE BY PACIFISTS

Want United States to Incite Revolt in Germany.

New York, April 6.—An appeal to President Wilson and to members of congress to urge the German people to revolt against their government and end the war "without the participation of the United States in actual hostilities," was sent from here by the Emergency Peace federation.

"Within the reichstag itself," the appeal says, "such a proposal already has been made."

MISS RUTH LAW.

Aviatix Returns From France and Offers Services to U. S.

Photo by American Press Association.

Ruth Law, Chicago-New York flight record holder, got back from France with a French dog wearing a helmet, and offers to drive a fast "little scout plane" for Uncle Sam.

AMERICANS SURE OF HEARTY WELCOME

London, April 6.—The Spectator, discussing the military aspect of American intervention in the war, appeals for the immediate dispatch of a small American force to this side as a "visible pledge and bond of union."

"A single brigade would be enough," it said. "The delight of the British people would be unbounded if the brigade could come to England first Americans could have but a dim idea of the reception awaiting such a force."

"We venture to say that if an American brigade marched through the streets of London before re-embararking for France our houses would almost crack with the cheering."

"We are told that American sympathy runs stronger with the French or the Russians than with ourselves and that if American troops come to Europe they won't come to the British front. Frankly, we don't believe it. We believe the American brigade would feel top times more at home with its own flesh and blood, talking its own language."

SHOULD STRIKE HARD BLOW

Speakers at St. Paul Favor Sending Army to France.

St. Paul, April 6.—Henry L. Stimson, former secretary of war, and his flying loyalty squadron urged that the United States strike a man's blow in the world war and 2,000 men and women, in the flag-bedecked People's church, sanctioned the plea in cheers and outbursts of applause.

The speakers asked that the United States send men to France, depending not on money, to help swing the balance against the "autocracy of Germany, which threatens even the free institutions of America."

At every reference to "bleeding France" the democracy of England or the new republic of Russia the speakers were interrupted by applause.

WORLD'S FOOD SUPPLY REPORTED DEFICIENT.

Rome, April 6.—The world's food crop is deficient and the situation is becoming alarming, according to David Lubin, American representative to the International Institute of Agriculture, who says:

"For the first time in many years there exists a deficit in the supply of corn, wheat, rye, barley and oats, estimated at a total of 130,000,000 bushels less than the normal requirements for countries open to trade. The situation is worse than was expected last October."

COLONEL DEFENDS ACTION

Roosevelt Believes in Taking Active Part in War.

New York, April 6.—Colonel Theodore Roosevelt issued a statement here in which he denied an "unwise precedent" would be created, as has been suggested, in permitting him to raise a division for active service on the French front.

"The American people," Colonel Roosevelt asserted, "are united behind the president in the determination to wage effective, aggressive war for our rights and for the rights of humanity and civilization."

"I believe our people now realize the system of universal military service is the only effective and the only absolutely democratic system."

AIDED PANAMA TO SERVE PURPOSE

Now Likely Colombia Will Get Her \$25,000,000.

MATTER LONG HANGING FIRE

United States Took the Territory Because It Wanted to Build a Canal and Wouldn't Pay Colombia's Price—Now It Seems That Public Sentiment Will Demand Payment in Full.

By ARTHUR W. DUNN.

Washington, April 6.—[Special].—We, the people of the United States, or a part of us, have been growing somewhat fidgety or a little uncomfortable about this Colombian business. For more than a dozen years we have scouted the claims of Colombia. They were preposterous because Colombia attempted to "hold us up" after we had offered more than the canal right was worth, and so in the language of Colonel Roosevelt we "took Panama."

Well, it has been going on for years. The Taft administration was favorable to making a recompense, and the Wilson administration made a treaty with an expression of mutual regrets for what happened in 1903 and the payment of \$25,000,000.

"Military Necessity."

Our people have had much to say about the ruthless manner in which Belgium was overrun at the beginning of the great war. Germany could not comprehend why we did not accept her explanation that it was a "military necessity."

Colonel Roosevelt has several times said "I took Panama," explaining that Colombia tried to hold us up and hence the new republic on the isthmus.

The United States did not sacrifice lives and property, but to all intents and purposes it accepted the "necessity" view when the republic of Panama was established.

May Be Colombia Has Rights.

And now we begin to wonder if Colombia does not have some rights in this controversy. The property was hers. Suppose she did think it was worth \$10,000,000 more than we were willing to pay. Suppose she had said, "You can't build a canal for any price." That would have been her just and legal right.

And so, knowing how we have felt about the overrunning of small nations, our people have begun to wonder about this Colombia-Panama business. Just as a guess I will predict that Colombia will get her \$25,000,000, and that shortly.

Rules Committee Less Powerful.

The house rules committee during the Sixty-fifth congress will be less powerful than it has been at any time since the Fifty-first congress, when Tom Reed made it the iron hand of the speaker that controlled the house of representatives.

The reason for this falling off in power has been the division of powers in the house. In shearing the speaker of nearly all his power and in spreading control about the house the rules committee lost a great deal of its prestige.

In the present house the committee on rules will never know when it has a majority behind it which will weaken its power.

Belong to a Past Age.

I read a complaint in one of our papers about the neglect of a civil war hero. It seemed that one of the veterans had died and little mention was made of his creditable civil war record.

It is not strange that fifty-two years after the close of a great war the people should be comparatively little interested in the men who took part in the struggle. They belong to a past age.

But they will be scarcely remembered after we have had a few years of the great war in Europe. As for the Spanish war heroes, why, they will not be remembered, at least only as participants in a minor scrimmage that amounted to little.

Will Not Be Silenced.

Clyde H. Tavenner of Illinois will not be silenced because he is no longer a member of the house. He has a ready and facile pen and can turn out a lot of reading matter. Before he was elected to congress he had a large newspaper audience, and he intends to keep up the game.

Tavenner was a pacifist. Another pacifist is not a member of this congress—Warren Worth Bailey of Pennsylvania. Bailey has a newspaper, through which he can express his views and opinions.

Stone and the Papers.

It is doubtful whether any man in public life was ever subjected to an equal amount of severe criticism as was Senator Stone of Missouri following his action on the armed neutrality bill at the close of the last session of congress.

"Senator Stone is used to newspaper criticism," remarked Congressman Borland of Missouri. "He has had the newspapers against him all his life and has been successful politically. I don't suppose that Stone has been worried to any great extent by what the newspapers have been saying since his action."

SETTING THE CLOCK BACK.

England's Curious Problem in the Daylight Saving Scheme.

A curious problem arose in England when the daylight saving scheme, which involved setting the clock ahead in May and setting it back in October, was first broached. J. H. Whitehouse, a member of the British house of commons, tells of a discussion in the house of lords and of some of the objections to the change that were made in that august assembly.

"A peer of considerable wisdom, of great resourcefulness in debate, pointed out what was going to happen," said Mr. Whitehouse. "He reminded the members of the house of lords that they are the eldest sons of their parents and under our legal system certain estates descend from the father to the eldest son."

"Now, take the case of the parents who have twins, male twins," he said. "The clock is put back by one hour on say, the 1st of October, at 2 o'clock in the morning. Well, now, at 1:55 (that is five minutes before you put back the clock) the eldest twin is born, and he is registered, therefore, as having been born at 4:55, at five minutes to 2 on the morning of Oct. 1."

"The second twin is born ten minutes later, and therefore he should be entered as having been born at five minutes past 2 on the same date and therefore should be properly registered as the second and younger son. But between the two births you put the clock back one hour, with the amazing legal result that the eldest son is born at 1:55 o'clock and the younger son is born at an hour earlier, at 1:05 o'clock."

"He put this case, and there is no fallacy in it. That is what precisely may happen, and he pointed out to their lordships that if this case did arise it would be necessary for them to pass a special act of parliament to determine which was the eldest son and which the youngest son."—Argonaut.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.—Adv't. Apr.

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

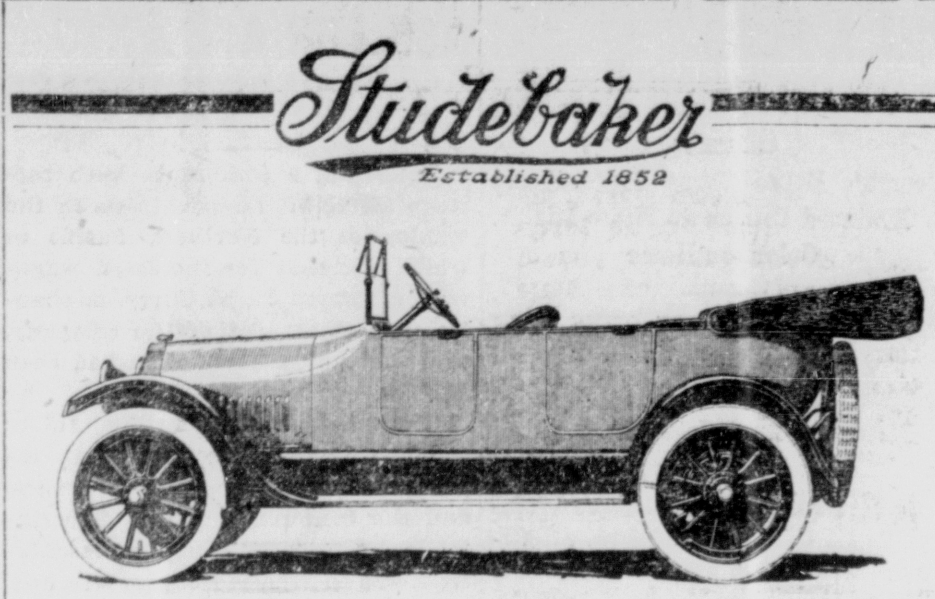

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.

Economy is Cost Divided by Time

The reason why the Studebaker Four is the most economical four is because of the extra quality, the extra safety, the extra power, the extra low upkeep.

Extra safety means the extra factor of strength which takes the strain of the shock which wrecks the small cheap car.

Extra power means smooth, vibrationless operation, not the jarring, jerking, racking strains of over exerted power.

Extra low upkeep is the sum of the advantages mentioned above, and it is the sum of economy, and that is why Studebaker believes it is better to put a little more money and a great deal more quality in manufacturing a car like the Series 18 \$940, and at the same time give you a seven passenger body, genuine leather upholstery and the same quality of fittings and equipment that you find in cars costing more than twice as much as the Studebaker Four.

We repeat that the Studebaker Series 18 is the most economical four in the world.

Come in and let us give you a demonstration. 40-H. P., 7-Passenger FOUR... \$ 985 50-H. P., 7-Passenger SIX..... 1250
